

# Ecological Food Systems

(MSc, PG Dip, PG Cert)

## Is our food supply resilient enough to meet the demands of the Future?

Join us for a postgraduate programme that looks at food production from a natural systems perspective.

This is a residential and transformative programme combining teaching, research and practice that will equip you to become a leader in the global food revolution.

Delivered in collaboration with Plymouth University, The Organic Research Centre, The Campaign for Real Farming and the Centre for Alternative Technology.

*Postgraduate study for changing lives*

---

### Upcoming Short Courses

#### Agroecology: Food for the Future

With Miguel A Altieri and Clara Nicholls

27 April - 1 May

Join leading US expert Miguel Altieri to learn about food production the natural way - how using a blend of agroecological science and indigenous knowledge is already working worldwide.

#### The Schumacher Experience

13 - 17 July

Join us for a week at the College and experience what it's like to be part of our learning community and sample some of the teachings on offer. 50% of the fee for this course is refunded if you apply for one of our postgraduate programmes.
